

# THE PRAETORIAN PROJECT: WHERE WE'VE BEEN

## OUR ORIGINAL GOAL:

In 2005, the first Pillar Church started in Dumfries, VA with a desire to reach nearby Marine Corps Base Quantico with the Gospel of Jesus Christ. In 2010, a goal was formed to plant multiplying churches in the most common areas frequented by Marine Corps service members to help provide healthy church homes for them as they constantly moved from base to base throughout their military career.

## WHERE WE ARE TODAY:

Now, the Praetorian Project is a family of 12 (and counting!) churches with a heart and culture to multiply. Currently, more than 80% of the Marine Corps has access to our family of churches, and starting in 2015, God has been leading the Project to expand even farther. We now serve **all** of the uniformed services in communities across the country with more churches planned to start in new key locations.

## CURRENT PRAETORIAN PROJECT CHURCHES:

### JAPAN

### UNITED STATES OF AMERICA

# WHERE WE'RE GOING

## OUR NEXT GOAL: Establish multiplying churches in 3 of the largest military regions in the country.

The Project is now giving focus and attention to 3 regions that have large numbers of military personnel and high populations of veterans transitioning to civilian life. We believe joining the gospel work of multiplying churches in these key regions will help us not only reach military personnel across the country but also serve as a catalyst for carrying the gospel to the ends of the earth.

CENTRAL  
TEXAS

## WE CAN'T DO THIS ALONE

For this ministry to grow and thrive, it takes a lot of help from supporting churches, individuals, and agencies. With the momentum that has started inside our family of churches, we believe we can meet the challenges of these locations in partnership with churches and individuals who are invested in what God is doing in the Praetorian Project.
